

Tips to Help You Remember to Take CABOMETYX

Keep a calendar in an easy to see place and mark it each time you take your medication

Use a weekly pillbox

Set the alarm on your clock, computer, or phone

Take your CABOMETYX right before or after a daily routine like brushing your teeth or feeding your pet

Keep your CABOMETYX in easy-to-see spots so they act as a visual reminder. (Remember to keep your medication out of reach of children.)

Ask a family member or friend to call or stop by to help remind you

Talk with your doctor, nurse or pharmacist. They may be able to offer suggestions that will help
